History: This message has been forwarded.

David,

I understand that RID may have invited PRPs to our meeting with ADEQ this week.

If that is the case, EPA would like for you to uninvite the PRPs.

If the PRPs would like to meet with EPA, ADEQ, and RID we can schedule a subsequent meeting.

The purpose of this meeting is for EPA to get an understanding of RID's revised proposal and the agreement between ADEQ and RID. EPA will not be in a position to respond to the PRPs about RIDs new proposal until we have had a chance to evaluate it and discuss it with ADEQ.

I understand that this is short notice with the holiday, but we just heard that the PRPs may have been invited.

I left you a voicemail as well.

Thank you.

Dusty
